Bekasi Regency, West Java 17510

Informatics student with a solid foundation in programming, data structures, and software development. Experienced in Python, HTML, and JavaScript, with a passion for solving real-world problems through technology. Quick learner, team player, and eager to gain hands-on experience through an internship.

EXPERIENCE

Hand-Held Product Technician

January 2022 - April 2022

Samsung Tech Institute

North Cikarang

Diagnosed, repaired, and maintained Samsung smartphones and tablets, including hardware/software troubleshooting, system reinstallation, component replacement, and basic soldering. Gained practical experience in device servicing and technical support.

Research and Development

July 2025 - September 2025

PT Smoot Motor Indonesia

East Jakarta

Assisted in product development and technical evaluation of electric motorcycles. Performed battery testing with analyzers and multimeters, supported data collection, component testing, and collaborated on prototyping, troubleshooting, and documentation.
